

Does Qatar have a solar power plant?

Qatar's Al Kharsaah solar power plant is Marubeni's third large-scale solar project in the region, following the company's first two large-scale solar projects in the United Arab Emirates (UAE) and Oman. What does the Al Kharsaah solar power plant mean for Qatar?

What is Qatar's first large-scale solar power generation project?

This Marubeni investment-backed plant, which was inaugurated on October 18, is the first large-scale solar power generation project in Qatar, with a maximum output of 800 MW. The power generated will be sold to Qatar's General Electricity & Water Corporation Kahramaa under a long-term contract of 25 years.

Why should Qatar invest in a solar power plant?

The power plant can supply 10% of the country's peak energy consumption and help to avoid 26 million tonnes of carbon emissions over its operational life. It also reduces the reliance on gas for power generation, diversifying Qatar's power sources. Total and Marubeni won the solar project through a competitive tender process.

Will Qatar's new solar power plant double its solar capacity?

The new solar power plant is expected to double Qatar's solar capacity by 2030. The project will elevate Qatar's photovoltaic solar power production capacity to 4GW. Credit: QatarEnergy. Qatari state-owned petroleum company QatarEnergy has unveiled plans to build a new 2GW solar power project in Qatar's Dukhan area.

What is Al Kharsaah solar power project?

The 800MW Al Kharsaah photovoltaic (PV) power project is Qatar's first large-scale solar power plant. The solar power project helps in reducing Qatar's reliance on gas for power generation.
