

What is the Bess consortium?

The BESS Consortium is a multi-stakeholder partnership set up to ensure these BESS benefits transform energy systems across low- and middle-income countries (LMICs). The Consortium is on track to meet its target of securing 5 GW of BESS commitments by the end of 2024 and deploying these by the end of 2027.

Which countries are joining the Bess consortium?

In addition, Barbados, Belize, Ghana, Nigeria, Malawi, Mauritania, Mozambique, and Togo are joining. The Global Leadership Council of the Global Energy Alliance for People and Planet made this announcement. By the end of 2025, the countries aim to achieve 5 GW of BESS through the consortium.

Why is Barbados partnering with the Bess consortium?

Barbados is committed to playing a leading role in urging concrete deliverables on climate and climate financing. We are here with the BESS Consortium today because we support their efforts to improve access to battery energy storage systems as part of the energy transition in countries like ours.

When will Bess be operational?

By the end of 2025, the countries aim to achieve 5 GW of BESS through the consortium. These systems are scheduled to be operational by the end of 2027. The consortium's initial 5 GW target will serve as a road map to a longer-term ambition of 90 GW of energy storage which is necessary in order to meet the 2030 goal of 400 GW of renewable energy.

Where is ADB implementing Bess projects?

ADB is implementing BESS projects across Asia and the Pacific, from small-scale projects in the Maldives, Philippines, and Pacific Islands, to large-scale projects in Cambodia, Thailand, and Mongolia.

Through the BESS Consortium, these first-mover countries are part of a collaborative effort to secure 5 gigawatts (GW) of BESS commitments by the end of 2024. In order to achieve the estimated 400 GW of renewable energy needed to alleviate energy poverty by 2030 and save a gigaton of CO<sub>2</sub>, 90 GW of storage capacity must be developed.
