

What's new with the new SolarEdge home battery?

New pricing shown above is only valid for orders despatched from AC Solar Warehouse after the 13th of December, 2024. The New SolarEdge Home Battery 10kWh battery (BAT-10K1PS0B-01) has a usable energy of 9.7kWh and a 100% depth of discharge capability.

When should I use SolarEdge home batteries?

SolarEdge home batteries can be used when rates are high or at night and during outages. They integrate with both single phase and three phase inverters, enabling full or partial home backup when the grid is down. Need help? Elevate Your Home's Energy Independence with SolarEdge Home Batteries.

Can the SolarEdge home battery be wall mounted?

The battery can be either wall mounted, using handles (purchased separately) or floor mounted using the purpose built floor stand (purchased separately). When purchasing the SolarEdge Home Battery, the Home Network Card will now be included at no additional cost.

Which SolarEdge inverters are compatible with the home battery?

The compatible SolarEdge inverters for the Home Battery is the Genesis single phase inverters and the Home Hub single phase inverters. Up to 3 batteries can be installed on the same inverter providing a capacity of up to 29.1 kWh. To install more than one battery additional branch cables are required. These are ordered separately.

Is a solar battery system worth it?

If you want to slash a few dollars off your energy bills and tap into your generated solar energy outside of daylight hours, then it may be worth adding a battery system to your home. It's important to keep in mind, however, that solar batteries are quite a significant financial investment.

How much does a solar battery cost?

Price Estimate: Approx \$4000-\$21,000 depending on size, installation extra. If you're looking for a solar battery system with enough horsepower to keep your home afloat without aid from the grid, it's probably worth checking out the BYD Premium LVS. This battery has a special modular design that allows its size and capacity to be easily expanded.

(1) Please refer to the SolarEdge Energy Bank battery connections and configuration application note for compatible inverters. (2) These specifications apply to part number BAT-10K1PS0B-01. (3) For warranty details please refer to the SolarEdge Energy Bank battery Limited Warranty.

The New SolarEdge Energy bank 10kWh battery has a usable energy of 9.7kWh and a 100% depth of discharge capability. The continuous output power is 5kW with a peak output power in backup mode of 7.5kW for 10 seconds.
