

Does Uzbekistan have solar energy?

Uzbekistan has an average of 330 sunny days a year and the potential for solar energy is huge. Uzbekistan has set an ambitious goal - to generate 30% of its electricity from renewable energy sources by 2030. Harnessing the sun's energy is one factor in making this plan a reality.

Will Uzbekistan be able to deploy solar energy by 2030?

After discussing the possible barriers to the deployment of solar energy in Uzbekistan, the report presents a roadmap for solar energy by 2030. It provides examples of international best practices in solar energy deployment from IEA member and association countries.

Which companies are launching large-scale solar PV projects in Uzbekistan?

Table 2	Announced large-scale solar PV projects in Uzbekistan	Year awarded	Project location	Offered capacity	Awarded tariff	Supply period	Awarded company
2020	Karmana district, Navoi region	100 MW	26.79 USD/MWh	25 years	Abu Dhabi	Future Energy Company PJSC (Masdar)	
2021	Samarkand region	100 MW	n/a	25 years	Total Eren		

Can solar energy save money in Uzbekistan?

Small and medium businesses are also starting to use solar energy in Uzbekistan. Those in the agriculture sector are turning to green energy. At a sewing factory in Samarkand. The solar panels installed on its rooftop allow residents to save money and be exempt from land and property taxes on the area covered by the panels -- for 10 years.

Where is the first solar plant located in Uzbekistan?

For instance, French company Total Eren developed one of the first solar station plants in Uzbekistan. Launched in July 2022, the Tutly solar farm is located around a hundred kilometres west of the city of Samarkand.

Can you buy solar panels in Uzbekistan?

Uzbekistan's government has recently launched a digital online platform which allows owners of private houses to buy solar panels in interest-free installments or a 30 percent reimbursement if they pay it all at once.

If you are in search of a reliable solar manufacturing company, checking out our solar outsourcing company, SolarFeeds, would help you get easy access to reliable information, news, data and ...

This Solar Energy Policy in Uzbekistan Roadmap is part of the EU4Energy programme, a five-year initiative funded by the European Union. EU4Energy's aim is to support the development of evidence-based energy policy design and ...
