

Is Saint Vincent and the Grenadines dependent on fossil fuels?

ST. VINCENT AND THE GRENADINES ON A PATH OF RENEWABLE ENERGY DEVELOPMENT

Caribbean small island states such as Saint Vincent and the Grenadines (SVG) is almost entirely dependent on fossil fuel for electricity production. This dependency has created major concerns for the sustainability of our economies and environment .

Can a reefer be powered by solar?

Since it's impossible for the sun to hit every side of a container at once, powering an average reefer entirely by solar is just not possible. Unless we change the energy consumption of the system that is. Since there is no sense in covering the entire reefer in solar, let's consider just using the top.

Do reefer containers use a lot of energy?

Reefer containers use the most energy when they are baking in the sun- which is exactly when solar panels perform best. Ships often do not have enough electrical outlets for all of the reefers that they load on the ship, meaning some have to share or simply go without power for the transit .

Are solar reefer containers Doom and gloom?

Things aren't all doom and gloom for solar reefer adoption. Reefer containers use the most energy when they are baking in the sun - which is exactly when solar panels perform best.

Where are solar-powered refrigerators & freezers deployed?

Our solar-powered refrigerators and freezers are currently deployed all over the world, from the Australian outback to the snowy streets of downtown Denver, and have provided non-stop operation throughout 3 continents since 2016.

Can a solar Reefer reduce the cost of perishable goods?

Reefers have enabled a global supply chain of perishable goods, but it comes at a high-energy cost. A solar reefer could help reduce this cost, but with current technology it won't eliminate it. As solar panel performance and strength improves it's worth revisiting. Soon a solar reefer may shift from a mere novelty to a new standard.

This document presents St. Vincent and the Grenadines' Energy Report Card (ERC) for 2021. The ERC provides an overview of the energy sector performance in St. Vincent and the

Refrigerated cargo shipping; Apparel transportation and specialized services; Hazardous material shipping; We also offer transportation of licensed cargo to Cuba, and have specialized services between Europe, Asia and St. Vincent. Additionally, through our Global Agent partners, our reach extends to other major ports worldwide.
