

How much money can you save with solar?

Most solar shoppers save between \$28,000 and \$120,000 on electricity over the lifetime of their solar panel system. We'll explain how to save money with solar, and how to calculate your estimated savings. Solar panels are an expensive initial investment but provide significant savings on energy bills over time.

How can I save money with a NEM 3.0 solar system?

The calculator page above shows that solar still provides tens of thousands in savings under NEM 3.0. However, the key to maximizing savings under NEM 3.0 is to pair solar with battery storage so that you are exporting as little solar production as possible. The video below walks through some tips to maximize the savings of a NEM 3.0 solar system.

Why are solar panels so expensive in 2023?

There are competing market forces pushing and pulling the price of solar panels in 2023. These include supply chain tangles leftover from the pandemic, trade tariffs, a surge in US manufacturing, and local policy changes.

Schaan (FL), April 27, 2022 - By the end of 2022, Hilti will build the largest photovoltaic plant in Liechtenstein at its headquarters in Schaan. More than 4600 solar modules, installed on an area of around 1.5 soccer fields, will supply the Hilti Campus with solar power in the future.
