

What is the Angola solar project?

The Angola Solar Project creates new opportunities for Angolan communities that will no longer be forced to rely on and pay for gasoline or diesel generators. Each one of the five projects that comprises the Angola Solar Project will supply the needs of 500,000 Angolan homes, mainly in rural areas.

How many MW of solar power will be installed in Angola?

The projects will be installed in the Moxico, Lunda Norte, Lunda Sul, Bie, and Malanje provinces, adding 296 MW of solar capacity and 719 MWh of battery energy storage system to the Angolan grid. The facilities will provide electricity to power one million consumers. Clean energy firm MCA Group has been tasked with the construction of the projects.

What makes Angola a good country for solar power?

Abundant sunshine, high solar radiation levels and a low electrification rate make Angola conducive to the development of solar photovoltaic power. The country's first solar power plants - located in Bié and Bafinda - were inaugurated in July 2022 and will supply electricity to 1.5 million households.

Will a 150 MW solar plant help Angola?

An agreement for the development of a 150 MW solar plant was signed between Angola's Ministry of Energy and Water and UAE-based renewable energy company Masdar in Dubai last December. The 150 MW project will produce electricity to power 90,000 homes, contributing to job creation, emissions reduction and efforts to increase national electrification.

Who backed Sun Africa's 370 MW solar PV project in Angola?

Sun Africa was awarded the prestigious 'ECA/DFI-backed deal of the year' by 'TXF Perfect 10' for Sun Africa's 370 MW solar PV project in Angola. Sun Africa initiated this project, developed it, and arranged long-term financing. At 188.88 MWdc, the Biopio site in Benguela is the largest single solar PV project in Sub-Saharan Africa.

Who owns solar power in Angola?

The asset is owned, run and financed by French energy giant TotalEnergies in partnership with Sonangol and local renewables company Greentech - Angola Environment Technology. In May 2022, President Lourenço approved a contract worth USD 1.02 billion for the development of new solar projects with the aim of electrifying 60 communes.

The park includes around 509,000 solar panels. The second plant, Bafinda Farta, with 96 MWp, will inject energy into the national grid to benefit over half a million consumers and is made up of around 261,000 solar panels.
