Discover our 5KWH 2.5KW Hybrid Solar Power System with a 5KWH LiFePO4 Lithium Battery, the perfect complete solar system for homes in Uganda. Reliable, efficient, and eco-friendly, this solar home system ensures uninterrupted power and reduced electricity bills.

We mainly install solar pumps in rural off-grid areas of Uganda but the technology can operate successfully even in urban areas of Uganda. Considerations for designing a solar pumping system include various parameters including: water demand (volume), water storage, water depth (head), location of PV panels and solar irradiance among others.

Kampala, Uganda "Village Energy installed a PV system for the NGO in which I work. I have been following the project from the initial quotation to the final installation. ... Solar systems have several advantages that make them an attractive option for homeowners in Uganda. Here are some key benefits: Cost Savings: By harnessing solar energy, homeowners can significantly reduce their electricity bills. Solar power is free once the system is installed, and excess energy can be sold back to the grid, earning homeowners additional income.

We take time to break down available options, trade-offs, and the long-term impact of switching to solar. Your Reliable Partner Helping you switch to cleaner, more cost-effective energy is only the start of our journey together.
