

South Georgia and South Sandwich Islands drax power limited

Who owns Drax Power Station?

Drax Power Station comes under the ownership of National Power, one of three power generation companies created as part of the privatisation of the electricity industry in England and Wales. The power station is acquired by the US-based AES corporation for £1.87 billion.

What happened at Drax Power Station in North Yorkshire?

In April, Drax announced the official end of coal-fired generation at Drax Power Station in North Yorkshire, marking a historic milestone in both the company and the UK's transformation to a zero-carbon energy future.

Who owns South Georgia and the South Sandwich Islands?

The United Kingdom claimed sovereignty over South Georgia in 1775 and the South Sandwich Islands in 1908. The territory of "South Georgia and the South Sandwich Islands" was formed in 1985; previously, it had been governed as part of the Falkland Islands Dependencies.

What is the ccTLD for South Georgia and the South Sandwich Islands?

The Internet country code top-level domain (ccTLD) for South Georgia and the South Sandwich Islands is .gs. The parts of the islands that are not permanently covered in snow or ice are part of the Scotia Sea Islands tundra ecoregion.

What happened to South Georgia and the South Sandwich Islands?

In 1985, South Georgia and the South Sandwich Islands ceased to be administered as a Falkland Islands Dependency and became a separate territory. The King Edward Point base, which had become a small military garrison after the Falklands War, returned to civilian use in 2001 and is now operated by the British Antarctic Survey.

Is Drax a 'mobilising a million' energy company?

Drax becomes the first UK energy company to announce an initiative to improve employability for a million people by 2025 - Mobilising A Million. In late January, Drax completes the sale of its gas assets to VPI Generation Limited. The Group announces in February that it has signed an acquisition agreement with Pinnacle Renewable Energy.
