

What are the new energy storage technologies in 2023?

Since 2023, a number of 300-megawatts-grade compressed air energy storage projects along with 100-megawatts-grade liquid flow battery projects begun construction. The new technologies including gravity storage, liquid air storage, carbon dioxide storage have been developed as well, according to the NEA.

Will Guizhou become a new energy storage center in 2025?

By 2025, Guizhou aims to develop itself into an important research and development and production center for new energy power batteries and materials. Recently, China saw a diversifying new energy storage know-hows. Lithium-ion batteries accounted for 97.4 percent of China's new-type energy storage capacity at the end of 2023.

Why is China promoting energy storage at the 2025 two sessions?

The buzzword "energy storage" at the 2025 Two Sessions underscores China's strategic focus on building a resilient, sustainable, and diverse energy system, contributing new efforts to a sustainable global future. The country's progress in new-type energy storage highlights how innovation can drive both economic and environmental progress worldwide.

Will Jinko ESS deliver a 10 MWh DC-coupled battery energy storage system?

Once operation, it [...] Jinko ESS solution for DC-Coupled BESS to Maximize Performance of Solar Assets in Australia. Jinko ESS, a global leader in energy storage solutions, has signed an agreement to deliver a 10 MWh DC-coupled Battery Energy Storage System (BESS) in Australia.

What's going on at the Energy Storage Summit Australia 2025?

NSW's BESS pipeline, PHES in Tasmania and the 'home of utility-scale storage' were discussed at the Energy Storage Summit Australia 2025. ESN Premium discusses the ongoing adaptation of EV battery lines to stationary storage applications with Jaehong Park, CEO of LG ES Vertech.

Which battery energy storage projects have been successful in Western Australia?

2.6GWh of utility-scale battery energy storage projects have been successful in Western Australia's first Capacity Investment Scheme tender. Energy storage developer Energy Vault is set to fully acquire the 125MW/1GWh Stoney Creek battery energy storage system (BESS) in New South Wales, Australia, from Enervest Group.
