

Energy Systems Group. Energy Systems Group was founded for the sole purpose of providing solar installers with the world's best products that are designed to suit New Zealand's harsh environments. We believe that our sun is an immensely vast resource that is the least damaging, and most effective, form of energy we have on our planet.

For more than 30 years, Able Solar has been creating solar powered systems that utilise natural energy. Users include those in rural lifestyle blocks, farms and the government. With a team of experienced installers located nationwide, we are able to design, install and service your power system all over New Zealand.
