

Will Thailand's first lithium-ion battery Gigafactory complete EV ecosystem?

Amita Technology, Thailand and ASEAN's first lithium-ion battery gigafactory, has pledged to complete the country's electric vehicle (EV) ecosystem by developing its own battery manufacturing from upstream to downstream, says Energy Absolute, Amita Technology's parent company.

Will Thailand's first EV battery production plant boost EV industry?

Under joint efforts, venture expected to give impetus to industry in SE Asia Thailand's first domestic electric vehicle battery pack production plant went into operation on Thursday. The plant, run jointly by Chinese battery cell manufacturer Gotion High-tech and Thai company Nuovo Plus, is expected to give Southeast Asia's EV industry a boost.

Will a lithium-ion battery factory strengthen Thailand's EV hub?

Speaking to a group of The Nation media members during a factory visit in Chachoengsao, Somphote Ahunai, CEO of Energy Absolute, said that having a factory that can completely produce lithium-ion batteries from cells will reinforce Thailand's position EV hub.

Does Thailand have EV batteries?

In addition to lithium, Thailand also discovered substantial reserves of sodium in the northeast region. Both minerals are crucial for producing 100% EV batteries, reinforcing Thailand's readiness to advance towards becoming a central and primary production base for EV batteries in the region.

How much will Thailand invest in battery production?

Mr Narit said that this year at least two large manufacturers would have clear plans to produce battery cells in Thailand and they would invest about 30 billion baht in total for this purpose. Each manufacturer would begin with a production capacity of 6-10 gigawatt hours a year, he said.

Will Thailand produce electric vehicles in two years?

An electric vehicle charging outlet displayed at a car show in Bangkok. (Photo: Wichan Charoenkiatpakul) The Board of Investment (BoI) expects foreign investors to set up a big plant in Thailand to produce battery cells for electric vehicles (EVs) within two years, following its roadshow in China last week.

RHY Battery est un fabricant professionnel qui se concentre sur la conception et la production de batteries et de chargeurs. Nos batteries et chargeurs personnalisés sont largement utilisés dans les outils électriques, les outils de jardinage, les aspirateurs et les véhicules électriques. Contactez-nous pour le meilleur prix !

At RHY, we possess a deep understanding of the unique characteristics of lithium-ion batteries. Our commitment to quality is evident in every aspect of our operations, from engineering and material selection to production and testing. ... setting a standard in the power tool battery industry. All our facilities and processes
