

The latest italian energy storage industry exhibition schedule

Will Italy need 10 GWh of energy storage capacity in 2028?

This was later confirmed by Minister of the Environment and Energy Security Gilberto Pichetto Fratin. Terna calculated Italy will need 10 GWh of energy storage capacity to maintain reliable grid electricity supply in 2028.

How many storage systems are there in Italy?

According to Italia Solare's Q1 2023 report, which is based on Gaudi data processing, at the end of the first quarter of 2023 there were 311,188 storage systems connected in Italy, with a total capacity of 2,329 MW and a maximum capacity of 3,946 MWh, in addition to Terna's installations, which total 60 MW and 250 MWh.

What are Italy's energy goals?

Italy's ambitious energy goals, outlined in the National Integrated Energy and Climate Plan (PNIEC), mark a transformative shift toward renewable energy. By 2030, the country is targeting 28GW of wind power and nearly 80GW of solar capacity, making energy storage essential for ensuring grid stability and maximizing renewable integration.

How much energy will Italy need in 2028?

Terna calculated Italy will need 10 GWh of energy storage capacity to maintain reliable grid electricity supply in 2028. That figure, or slightly less, will be the amount available to developers who participate in the country's first energy storage capacity auction, known as the mercato a termine degli stoccaggi, or MACSE.

How many GWh of energy storage is needed in 2025?

To maintain grid stability, TERNA forecasts the need for 71GWh of storage, equivalent to about 20GW of capacity by 2030. The second edition of RENMAD Storage Italia (April 2-3, 2025) will bring together leading experts and industry leaders to discuss the evolving energy storage landscape, exploring both the opportunities and challenges ahead.

Green Energy India Expo 2025 - Karnataka. The Green Energy India Expo 2025, scheduled for December 16-18, 2025, at BIEC, Bengaluru, is India's top renewable energy exhibition, attracting industry professionals,

...

Industry: Renewable Energy. About The Exhibition: HUSUM WIND 2025 is the leading trade event for renewable energies in the German-speaking market. It brings together industry leaders from sectors like onshore and offshore wind energy, green hydrogen solutions, sector coupling, energy storage technologies, digital innovations, and sustainable ...
