

How many solar projects has Luxembourg selected?

Luxembourg has selected 75 solar projects in the nation's first procurement exercise for self-consumption. It will launch a second tender in July. From pv magazine France Luxembourg's Ministry of Economy and Ministry of Energy have chosen 85 projects totaling 43.3 MW in the country's inaugural solar self-consumption tender.

How has TSMC saved energy?

In addition, we replaced inefficient components and optimized equipment energy consumption. TSMC has carried out a total of 503 energy-saving measures spanning 8 different categories. These measures saved 300 GWh, which is equal to eliminating 160 thousand metric tons of carbon dioxide emissions, and saved NT\$750 million in utility fees.

Why is TSMC a good company?

TSMC has made continuous improvement in energy saving and carbon reduction. All improvement experience is applied as the best available technology to reach maximum energy efficiency and reduce greenhouse gas emissions. TSMC has established intelligent management systems to control power use and reduce standby power consumption.

Why is solar energy booming in Luxembourg?

"Solar energy is booming in Luxembourg ... this energy source is not only clean and helps the Grand Duchy to achieve its renewable energy development objectives, but it is also produced locally and is part of the solutions to break out of dependence on Russian fossil fuels," said Luxembourg Energy Minister Claude Turmes.

When will Luxembourg launch a second solar tender?

The ministry plans to launch the second tender of this kind in July. As of the end of 2022, Luxembourg had approximately 319 MW of installed PV capacity, with around 42 MW of new solar additions last year, according to the International Renewable Energy Agency. How many solar modules are there in Luxembourg?

The European joint venture will open a PV module factory in Hollerich, Luxembourg, at the end of this year. In the first phase, the facility will have 50 MW of capacity, producing nearly 100,000 solar modules per year, according to a statement from the government of Luxembourg. Solarcells plans to double the factory's capacity to 100 MW by 2026.
