

Does Venezuela need an energy transition?

It is unmistakable that Venezuela needs an energy transition to reach the goals of sustainability and poverty reduction. Based on the current national reality, the recommendations to improve the Venezuelan energy sector will be presented from two different perspectives.

Does Venezuela favor fossil fuel energy instead of renewables?

REVE alerts of its concerns that the Venezuelan government favors fossil fuel energy instead of renewables and has abandoned renewable initiatives, with results which are totally opposite to the incipient interest of renewables development.

What is the Venezuelan energy framework?

The Venezuelan energy framework Venezuela plays an important role in global energy markets. Along with the rest of Latin American countries, it has evidenced different stages on its energy evolution. The understanding of some relevant facts about this sector is needed to evaluate current conditions and challenges.

Are wind and solar projects competitive in Venezuela?

In general, experts warn that the existing Venezuelan regulatory framework makes wind and solar projects not competitive and this creates additional risks for the development of such energy potential ,,. The severity of all such factors evidence the difficulties to develop a sustainable energy sector in Venezuela ,.

Are there any official records about wind and solar projects in Venezuela?

Regrettably, there are no official records about them . In general, experts warn that the existing Venezuelan regulatory framework makes wind and solar projects not competitive and this creates additional risks for the development of such energy potential ,,.

How does Venezuela's economic policy affect energy consumption?

Venezuela's restrictive economic policies (Figure 3) have resulted in a decrease in inflation-adjusted GDP per capita, which has led to a decrease in energy consumption (Figure 4). Venezuela has the refining capacity to meet its domestic demand, but the country's refineries are in poor condition.

LR Renewables were great! LR Renewables were great. Even though my initial installation was postponed by a week I still feel a 5 star review is justified. Two great young chaos arrived one time and had everything installed and working by lunch time. Great job and will be ordering an extra battery soon! Date of experience: June 25, 2024
