Global Photovoltaic Power Potential by Country. Specifically for Tunisia, country factsheet has been elaborated, including the information on solar resource and PV power potential country statistics, seasonal electricity generation variations, LCOE estimates and cross-correlation with the relevant socio-economic indicators.

Eine Investition, die sich Lohnt. Ich bin sehr zufrieden mit dem Kauf- und Installationsprozess der Paneele von We Do Solar. Ich hatte ein paar Stunden für die Installation eingeplant, aber es hat maximal 20-30 Minuten gedauert, und das auch nur, weil ich die alten tragbaren Paneele und jede Menge anderen Kram vom Balkon entfernen musste.

Progress at all five of the large solar photovoltaic concessions first launched in 2019 is an indication that Tunisia's renewable power sector may be moving forward despite extremely difficult political conditions. Scatec's farm-out of a stake in its two projects to Japan's Aeolus represents a major new commitment, backed by carbon credits along with debt financing.

Holistic support is being provided to the GoT's initiatives to transition towards renewable energy. The GoT plans to attract private investment in renewable energy through three regimes: i) concessions for large projects, ii) authorization for small and medium projects (up to 10 MW for solar photovoltaic and 30 MW for wind), and iii) self-generation for industrial customers.

Norwegian renewable energy developer Scatec has partnered with Aeolus, part of the Japanese trading company Toyota Tsusho Group, to develop 120MW of solar PV in Tunisia.
