About Western Sahara Where is Western Sahara? Western Sahara is located to the south of Morocco and north of Mauritania. As its name suggests, it is located right in the middle of the Sahara Desert. It spans over 272,000 square kilometers (105,000 square miles) and is the most sparsely populated "country" on the continent (and second globally).

Yet the vast majority of its attacks are confined to a northeastern section of the former UN buffer zone inside Western Sahara, suggesting that the group is unable to carry out attacks in the rest of the territory. The Front largely demobilized after the 1991 cease-fire, maintaining only minimal forces; it then lost one of its main arms ...

The events triggered by the Moroccan and Mauritanian joint invasion of Western Sahara at the end of 1975 are directly linked to the large displacement of the Saharawi population, most of whom live as refugees in south-west Algeria. The major bulk of Saharawis became refugees during the war between the Polisario Front and Morocco. The south-western desert region near ...
